

Note: Please send a symposium proposal directly to the local organizing committee via email: neuroinformation@163.com

The proposal requires the following information:

1. Title of the Symposium
2. Name(s) of Proponent(s)
3. Brief paragraph describing the timeliness and importance of the topic, the desired format and presenter diversity, if applicable.
4. Name and affiliations for all presenters and proponents.
5. The title and, preferably, a brief summary of each presentation.

Scientific quality, novelty of the presentations, the general scientific interest of the topic and appropriateness for the meeting will be the primary selection criteria. Organizers should include presenters of diverse genders and nationalities and invite presenters from other institutions and laboratories. The deadline for symposia proposal is by **May 31, 2022**.

Each symposium should preferably be 90 minutes in duration, with four or five speakers (around 20-minute for each presentation) on interrelated topics.

Important Note: Presenters in the symposia will not receive complimentary registration or honoraria. Symposia speakers are required to register for and attend the meeting.
